AGGLOREX JUDOMATS

A recently modernised and well-equipped production line guarantees that the AGGLOREX - Judomat has a perfect finish and correct sizes, meeting the severest specifications for safety, comfort and durability.

This explains why the AGGLOREX - Judomat is often preferred for national and international championships like the Panamerican Championships Miami 2008, the European Championships 2008 Lisbon and the World Championships 2009 in Rotterdam.

**Official supplier to the International Judo Federation.
Exclusive Supplier Panamerican Judo Federation.
according to the European Standard EN 12503-3**

Composition of the AGGLOREX - Judomat.

- The interior consists of a specially developed AGGLOFOAM for Judomats (100% rebonded PU-foam) in various densities to suit a variety of disciplines within the Martial Arts.
- Top and sides of the mat are fully laminated with a strong and hygienic judomat vinyl with rice-straw pattern; the corners are sealed. Cotton covers are available as well.
- Anti-skid bottom of waffle rubber, also fully laminated and edges finished all round with a hotmelt reinforcement.

Technical specifications upon request.

AGGLOREX - Judomats are supplied as follows :

Choose the right AGGLOREX - mat for your martial art !

The combination of the weight and the anti-skid base of the AGGLOREX "OLYMPIC" mat in the size of about 2000 x 1000 x 30 mm is suitable for many other major martial arts sports, such as Karate, Taekwondo and Jiu-Jitsu. Our mat used as such very intensively will continuously serve you for many years, just like the regular AGGLOREX "STANDARD" Judomat.

AGGLOFOAM Underlay

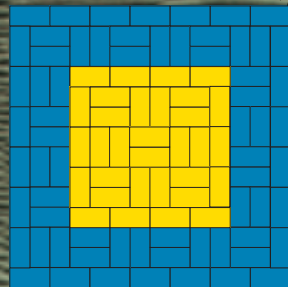

The interior of the AGGLOREX - Judomat, being our AGGLOFOAM, is frequently applied as underlay underneath our regular Judomats, especially when they are laid on stone or concrete floors. The most popular underlay is our AGGLOFOAM 180 kg/cbm in the size of about 2000 x 1000 x 30 mm. Other densities and sizes are available on request.

12m x 12m (32+40)

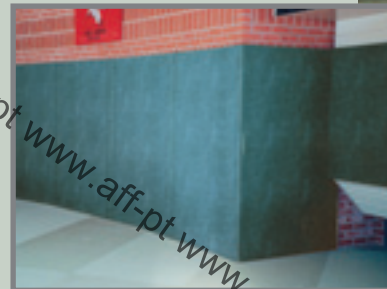

10m x 10m (32+18)

AGGLOREX WALL PROTECTION

Wall protection is recommended for safety reasons in those cases where the distance between the edge of the Judomat and the wall or some dangerous obstacle is less than 2 metres. Agglorex increases your safety by means of panels in the flexible and highly shock-absorbent AGGLOFOAM, covered with a fire-retardant artificial leather. Several colours available.

Standard dimensions :

- ca. 2000 x 1000 x 25 mm
- ca. 1500 x 1000 x 25 mm

AGGLOREX - NAGE KOMI

This new training tool is ideal to help teaching throwing techniques. The new Nage Komi mat is designed to absorb impact shocks. Fits perfectly into your existing judomat area because of its size (2000 x 1000 mm). Slanted on 2 sides for better footing.

- Interior in AGGLOFOAM, rebonded PU-foam, in a composition specially developed to arrive at equally hard NAGE KOMI mat allover.
- The surface and sides are fully laminated with a very strong smooth vinyl.
- Colour: blue
- The corners are perfectly sealed.
- Antiskid bottom of waffle rubber on heavy jute is also fully laminated to the bottom of the interior. The edges of the antiskid material are reinforced with a hotmelt.
- Sides : cut slantwise
- Density: 80kg/m³
